## LAND REGISTRATION REFORM ACT

With the introduction of the new standard documents under the *Land Registration Reform Act*, it is now necessary to provide Property Assessment Roll Numbers on the Transfer/Deed of Land and the Charge/Mortgage of Land.

### ASSESSMENT ROLL NUMBER

Five components of the Assessment Roll Number are required for the registration of either of the two new standard documents. These components are as follows:

- County — A two digit number identifying the County, District or Regional Municipality.
- Municipality — A two digit number which identifies the City, Town, Village, Township or Improvement District in which the property is located.
- Map — A three digit number defining a large segment of a municipality.
- Subdivision — A three digit number which represents a smaller aggregation of properties for assessment purposes. This may equate to a city block or a rural concession.
- Parcel — A five digit number which identifies a specific property.

### COUNTY MUNICIPALITY REPORT

Because the first two components of the Assessment Roll Number, the County and Municipality codes, may not always be available, a complete list of County and Municipality numbers is reproduced here for convenient reference.

This report produced for the Province is organized alphabetically by County. Municipalities are then sequenced alphabetically.
